- 7.00 pm Dinner
-

Monday, 14. September 09

Breakfast and departures.

During this programme our guests will have different occasions to take an active role.

1. On Friday morning you have the opportunity to present one project from the field of promotion of innovation from your hometown. Thank you for giving a very short presentation (5-7min), as we will need time for interpreting. Using more pictures and less text will help understanding.

As technical support we can provide you a data projector and laptop, as well as an overhead-projector and display panels if needed.

2. During the workshops and field trips (Friday- and Saturday afternoon) you can get in contact with competent experts from our region. We invite you to use this opportunity and consider it composing your delegation.

3. On Saturday morning we would like to give an occasion to our citizens to get information about our twin towns. We will invite interested citizens as well as representatives from our associations, schools and other institutions in order to get in contact.

Please let us know if you wish to meet particular interlocutors, so that we can invite the right persons. For your presentation we will provide tables and display panels.
